EDUCATION

KDK College of Engineering, Nagpur
*B.Tech - Information Technology - **Grade - A***

June 2021 – May 2025

Nagpur, India

Baba Saheb Deshmukh Junior college
*Higher Education - **Percentage - 78.8%***

June 2020 – March 2021

Pandharkawada, India

EXPERIENCE

The Developers Arena 
Role - Full Stack Developer Intern

July 2025 – December 2025

Hyderabad, India

- Developed React.js frontend features using Hooks and component-based architecture, building modular and reusable UI components for consistent development.
- Implemented JWT-based authentication and authorization, handling tokens, cookies, and protected routes to manage secure user sessions.
- Built and integrated RESTful APIs using Node.js, Express, and MongoDB, working with schema-based validation, request handling, and structured error responses.
- Improved application performance using lazy loading, code-splitting, and optimized rendering, resulting in smoother loading and better usability.
- Implemented form handling and client-side routing using React Router, React Hook Form, and Yup to ensure reliable data input and navigation.

PROJECTS

Study Wise Banking  | [React.js, JavaScript, Python, REST APIs, MongoDB](#)

- Designed and developed a full-stack learning platform for banking exam aspirants, focusing on personalized assessment and performance tracking.
- Built modular React.js components and dashboards for students and admins, enabling quiz management, analytics, and progress visualization.
- Implemented backend logic using Python and REST APIs to process test results, evaluate performance patterns, and generate adaptive learning insights.
- Developed data-driven workflows to track strengths, weaknesses, and learning gaps, improving study efficiency and engagement.

MeetPune  | [React.js, JavaScript, Node.js, WebSockets, REST APIs, MongoDB](#)

- Built a real-time chat application with responsive UI, supporting one-to-one messaging and live user presence.
- Implemented WebSocket-based real-time communication with optimistic UI updates for smooth user experience.
- Designed scalable frontend architecture using React.js with efficient state management and reusable components.
- Developed REST APIs and backend logic using Node.js to manage users, messages, and session data.

TECHNICAL SKILLS

Languages: Python, JavaScript, C++, SQL.

Frameworks: React.js, React Native.

Tools: Git, GitHub, VS Code, Antigravity Platform, N8N.

Soft Skills: Communication, Team Collaboration, Problem-Solving, Adaptability, Critical Thinking.
